EXPERIENCE

Tata Consultancy Services (Client: GE Healthcare) | Aug 2023 – Present | Role: SQL Developer – Supply Chain Domain

- Designed and developed **production-ready SQL code** for multiple supply chain sub-projects.
- Built complex queries powering dashboards such as **Excess Dashboard, Backorders Dashboard, SMR Report, and OTD Report**.
 - Excess Dashboard** – calculated supply chain health metrics at prime-part level (**IQR, Excess, Min/Max Entitlement, Deficit, Active, Slow, Obsolete quantities**).
 - NOVA Backorders Dashboard** – processed sales order data to derive backorders metrics including but not limited to **backorder age and category**.
 - Schedule Change Suppression (SCS)** – implemented complex logic to automate PO flag handling (**exclude/include PO from SCS**), including auto-removal based on aging.
- Delivered all solutions with **zero post-deployment defects**, ensuring reliable production performance.

Skills: SQL, Supply Chain Concepts

EDUCATION

- Bengal Institute of Technology**, Kolkata West Bengal
BTECH - Computer Science and Engineering
(**2023** Passout)
CGPA- **9.53**
- Delhi Public School Ruby Park**, Kolkata West Bengal
- Class XII (**2018** Passout)
Grade %- 87.6
- Birla Bharati**, Kolkata West Bengal - Class X
(**2016** Passout)
CGPA- **10**

TRAINING AND CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified **Generative AI Professional**
- Oracle Cloud Infrastructure 2025 Certified **AI Foundations Associate**
- Google IT Support Specialization, Coursera
- IBM Data Science Specialization, Coursera
- Google Data Analytics Specialization, Coursera
- Developing Soft Skills and Personality, NPTEL (8 w)

SKILLS

- Expert- SQL, PL/SQL, C, C++, Java**
- Proficient- Machine Learning, Data Analytics, Communication**
- Novice – Cloud Computing, Deep Learning, Natural Language Processing, Python**

OTHER PROJECTS

- Basic Image Classification** with TensorFlow
- Analyze Box Office Data** with Seaborn and Python
- Movie Recommendation System** using Collaborative Filtering
- Medical Diagnosis using **Support Vector Machines**
- Perform Sentiment Analysis with **scikit-learn**
- Automatic Number Plate Detection using **TensorFlow** and EasyOCR

ADDITIONAL

- Interests-** Reading, Writing, Music
- Extracurricular Skills-** Guitar(Trained), Painting(Certified)
- Languages-** Fluent in English, Bengali (Mother Tongue), Hindi
